Portfolio: qinlin619.github.io/qinlin2026 | LinkedIn: linkedin.com/in/qinlin-liu-a88635209

Profile: Creative and dynamic **UX & Product Designer** who specializes in integrating **Gamification** into products to craft highly engaging user journeys. I bridge the gap between complex engineering requirements and delightful interaction design, ensuring products drive both real business value and user joy. With an academic background from **TU Delft** and professional experience at **Signify (Philips Hue)**, I excel in high-feedback, fast-paced environments where data-driven execution meets out-of-the-box thinking.

EDUCATION

Delft University of Technology (TU Delft)

Sep 2023 – Nov 2025

M.Sc., Design for Interaction | GPA: 8.2/10

University of Liverpool

Sep 2020 – Jul 2022

B.Eng., Industrial Design | GPA: 3.64/4.0

PROFESSIONAL EXPERIENCE

EuroStay

Jun 2024 – Present

Co-Founder & UI/UX Lead

- **0-to-1 Product Framework:** Architected and built the complete app framework and web ecosystem from scratch, scaling to **10,000+ active users** within months.
- **User Research & Conversion:** Iterated the UI/UX architecture based on extensive user research and A/B testing, resulting in a **80% increase in member conversion rates**.
- **Agile Design-to-Dev:** Translated complex business logic into high-fidelity wireframes, rapid prototypes, and component-based design systems, ensuring seamless handoff to engineering.

Signify Netherlands B.V. (Philips Hue & WiZ)

Aug 2024 – Feb 2025

UX Design Intern

- **Data-Driven Global Updates:** Spearheaded global UI updates for the WiZ brand website, analyzing **50,000+ user data points** to optimize landing page hierarchy and increase visual credibility.
- **Design System Expansion:** Expanded and maintained scalable component-based UI design systems in Figma, delivering templates that accelerated cross-functional workflows by 30%.
- **Performance Marketing & Assets:** Synthesized market user data to create high-conversion motion designs and high-fidelity UI assets, bridging premium brand storytelling with measurable engagement.

AI Interface Designer & System Developer

- **Human-AI Interaction:** Led the UI/UX design for "CoBrush," an advanced AI human-robot collaborative system, focusing on making complex AI logic intuitive for human operators.
- **Interactive Frontend for AI:** Developed the operational logic and real-time data-to-UI mapping for AI-driven workspaces, ensuring high-performance and smooth user flow optimization.

PROJECT EXPERIENCE

Atag Induction Hob Redesign (Project: [Link](#))

2025

UX/UI Designer

- **User-Centered Redesign:** Led end-to-end user research, rapid prototyping, and usability testing to bridge user needs with technical induction hob functionality.
- **Interaction Strategy:** Redesigned both the digital interface and physical touchpoints to reduce cognitive load, emphasizing human-centered ergonomics and intuitive safety features.
- **Documentation & Deliverables:** Produced comprehensive Phase 1-Final design reports and high-impact visual posters detailing the iterative journey from insight to execution.

SKILLS & CORE COMPETENCIES

UX/UI Design: Product Strategy, User-Centered Design, Wireframing, Rapid Prototyping, Design Systems, Responsive Interfaces, Usability Testing, Gamification.

Visual & Marketing: Digital Marketing Assets, Campaign Visuals, Brand Identity, Motion Design, Presentation Templates.

Tools & Tech: Figma (Expert), Adobe Creative Suite, Framer, Webflow, HTML/CSS, React.js (Concepts), 3D Modeling.

Languages: Mandarin (Native), Cantonese (Fluent), English (Fluent / C1), Spanish (Intermediate), Japanese (Beginner).

HONORS & AWARDS

Mobile World Congress (MWC) Barcelona 2026 – Bronze Award for Innovative Interactive Product Design.
