Lambanana Tour

2022 · Individual

After several visits to the Museum of Liverpool, I found that the arrangement of the stand did not appeal to a younger group because the historical knowledge in the stand explanations was too difficult to understand.

A guide map and souvenir for the Museum of Liverpool was designed to encourage children to be more active and knowledgeable when visiting the museum.

Background research

Situated on the banks of the River Mersey in Liverpool, England, the Museum of Liverpool is the latest addition to the National Museum of Liverpool, which opened in 2011.

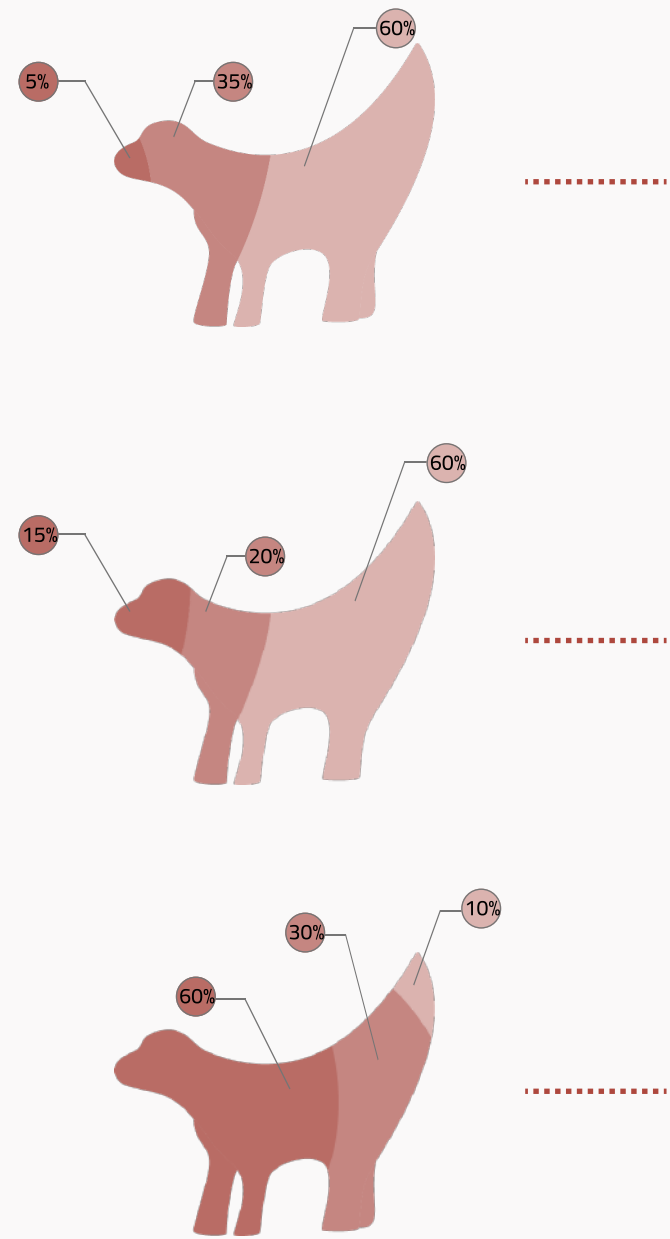

There are many pavilions within the Museum of Liverpool, which are currently heavily visited and have a relatively wide age distribution of visitors.

However, the Museum of Liverpool does not have a guide map for people to follow.

The map of the exhibition halls is boring and difficult for children to understand.
