

QINLIN LIU

UX Designer

Specialized in creating high-engagement products, with deep expertise in user research, design systems, data analysis, and gamified applications. Full-stack transition background with strong technical efficiency, enabling cross-platform development and seamless alignment with engineering teams.

PROFESSIONAL EXPERIENCE

Co-Founder & UI/UX Lead | EuroStay

Netherlands | Spain | Remote | 06/2024 – Present

Led product design and operations for a social platform targeting European backpackers, collaborating closely with development and marketing teams.

- Architecture: Led 0-to-1 architecture design and launch, defining core membership business logic. Achieved 20,000+ active users within 3 months of the July 2025 launch through precise cold-start strategies.
- Conversion: Analyzed funnel drop-offs and addressed payment friction through multiple usability tests (including 4 surveys with 3,000+ participants and 300+ interviews). Increased conversion by 80% by streamlining validation and payment paths.
- Growth Strategy: Managed Rednote content acquisition, producing 3 videos with 1M+ views and 10+ with 10k+ likes. Achieved 3M+ brand impressions and significantly increased public-to-private traffic conversion.
- Community: Managed 40+ private domain communities (500 members each). Tracked real-time user feedback to drive continuous UI/UX logic iterations.

Philips Hue & WiZ UX Designer | Signify (Philips Lighting)

Eindhoven, Netherlands | 08/2024 – 02/2025

Participated in global digital ecosystem construction for Signify's dual brands (Philips Hue & WiZ), covering B2C strategy, major campaigns, and website reconstruction.

- Amazon Strategy: Analyzed 50,000+ user reviews to identify key purchase drivers. Led the A+ page architecture restructure for 200+ products, translating insights into high-conversion visual assets.
- Global Campaigns: Redesigned the marketing visual system for the entire product line based on drop-off points. Highlighted "smart linkage" selling points, boosting cross-functional efficiency by 30%.
- Website Reconstruction: Optimized the conversion funnel for the WiZ global site. Established a Figma-based modular Design System to ensure brand consistency across multi-continental sites.

Human-AI Interaction System Researcher | HKUST

Hong Kong, China | 10/2025 – 01/2026

Led user research and full-stack development for the "CoBrush" human-machine collaborative painting system.

- Research & Data: Conducted 300+ hours of qualitative and quantitative research with 45+ participants. Analyzed cognitive load to rapidly iterate system design via code, increasing user satisfaction by 65%.
- Full-Stack: Developed the Franka robot arm interactive console using AI-assisted programming. Decoupled complex human-AI logic and explored high-frequency real-time data visualization.

SELECTED PROJECT

Smart Induction Hob System Redesign | ATAG

Netherlands | 2025

Designed the next-gen interaction system for ATAG, a top Dutch kitchen brand; optimized touch experience hierarchy through prototype validation.

- Implemented Figma workflows that reduced first-time user learning time by 80%, increased task accuracy by 60%, and boosted hidden feature usage by 75%.

EDUCATION

M.Sc. Design for Interaction

TU Delft

09/2023 – 08/2025, Netherlands

GPA: 8.2/10.0 | Thesis: 9.5/10

B.Eng. Industrial Design

University of Liverpool

2020 – 2022, United Kingdom

GPA: 3.64/4.0

CORE SKILLS

Design & Strategy

Service Blueprinting, UCD, Design Systems, Wireframing, Rapid Prototyping, Brand Narrative

Research & Validation

Qualitative & Quantitative Research, User Interviews, Journey Mapping, Usability Testing, A/B Testing, Data Analysis

Technical & AI

Figma, AI Workflow, HTML/CSS, React.js, Framer, Adobe Creative Suite

HONORS

2026 MWC Nokia Hackathon - Bronze

Barcelona, Spain | 2026

Designed a disaster escape product using Nokia API & AI under 24 hours.
